About Lipoid Kosmetik

Lipoid Kosmetik is a leading manufacturer of natural raw materials for the cosmetic and personal care industry. High-quality botanical actives and extracts (Lipoid Kosmetik AG, Switzerland) as well as pharma grade natural lecithins and phospholipids (Lipoid GmbH, Germany) are part of our sophisticated portfolio. As a pioneer in these fields, Lipoid Kosmetik has gained an outstanding reputation in the global cosmetic industry for more than 50 years. This long-standing expertise, in combination with the exceptional quality of our portfolio, enables our customers to develop innovative, functional and natural cosmetic products meeting the highest standards.

Quality & Reliability

Founded in 1972, Lipoid Kosmetik follows a long-term vision to allow consistency and innovation as key values. Thereby, quality, reliability and inspiration is the focus from product development to customer support.

Our quality system meets the highest standards set by the regulatory authorities and the cosmetic industry, Cosmetics GMP ISO 22716:2007 and ISO 9001:2015.

Naturalness & Sustainability

Natural, sustainable and organic ingredients are our core competence, including COSMOS/ NATRUE-approved and -certified products, and the quantification of naturalness based on the ISO 16128 guidelines. We provide comprehensive documentation of the products and supply chains, and offer superior regulatory support.

Our efforts in Corporate Social Responsibility have been rewarded multiple times with an EcoVadis Platinum medal, assigning us to the top 1 % of assessed suppliers.

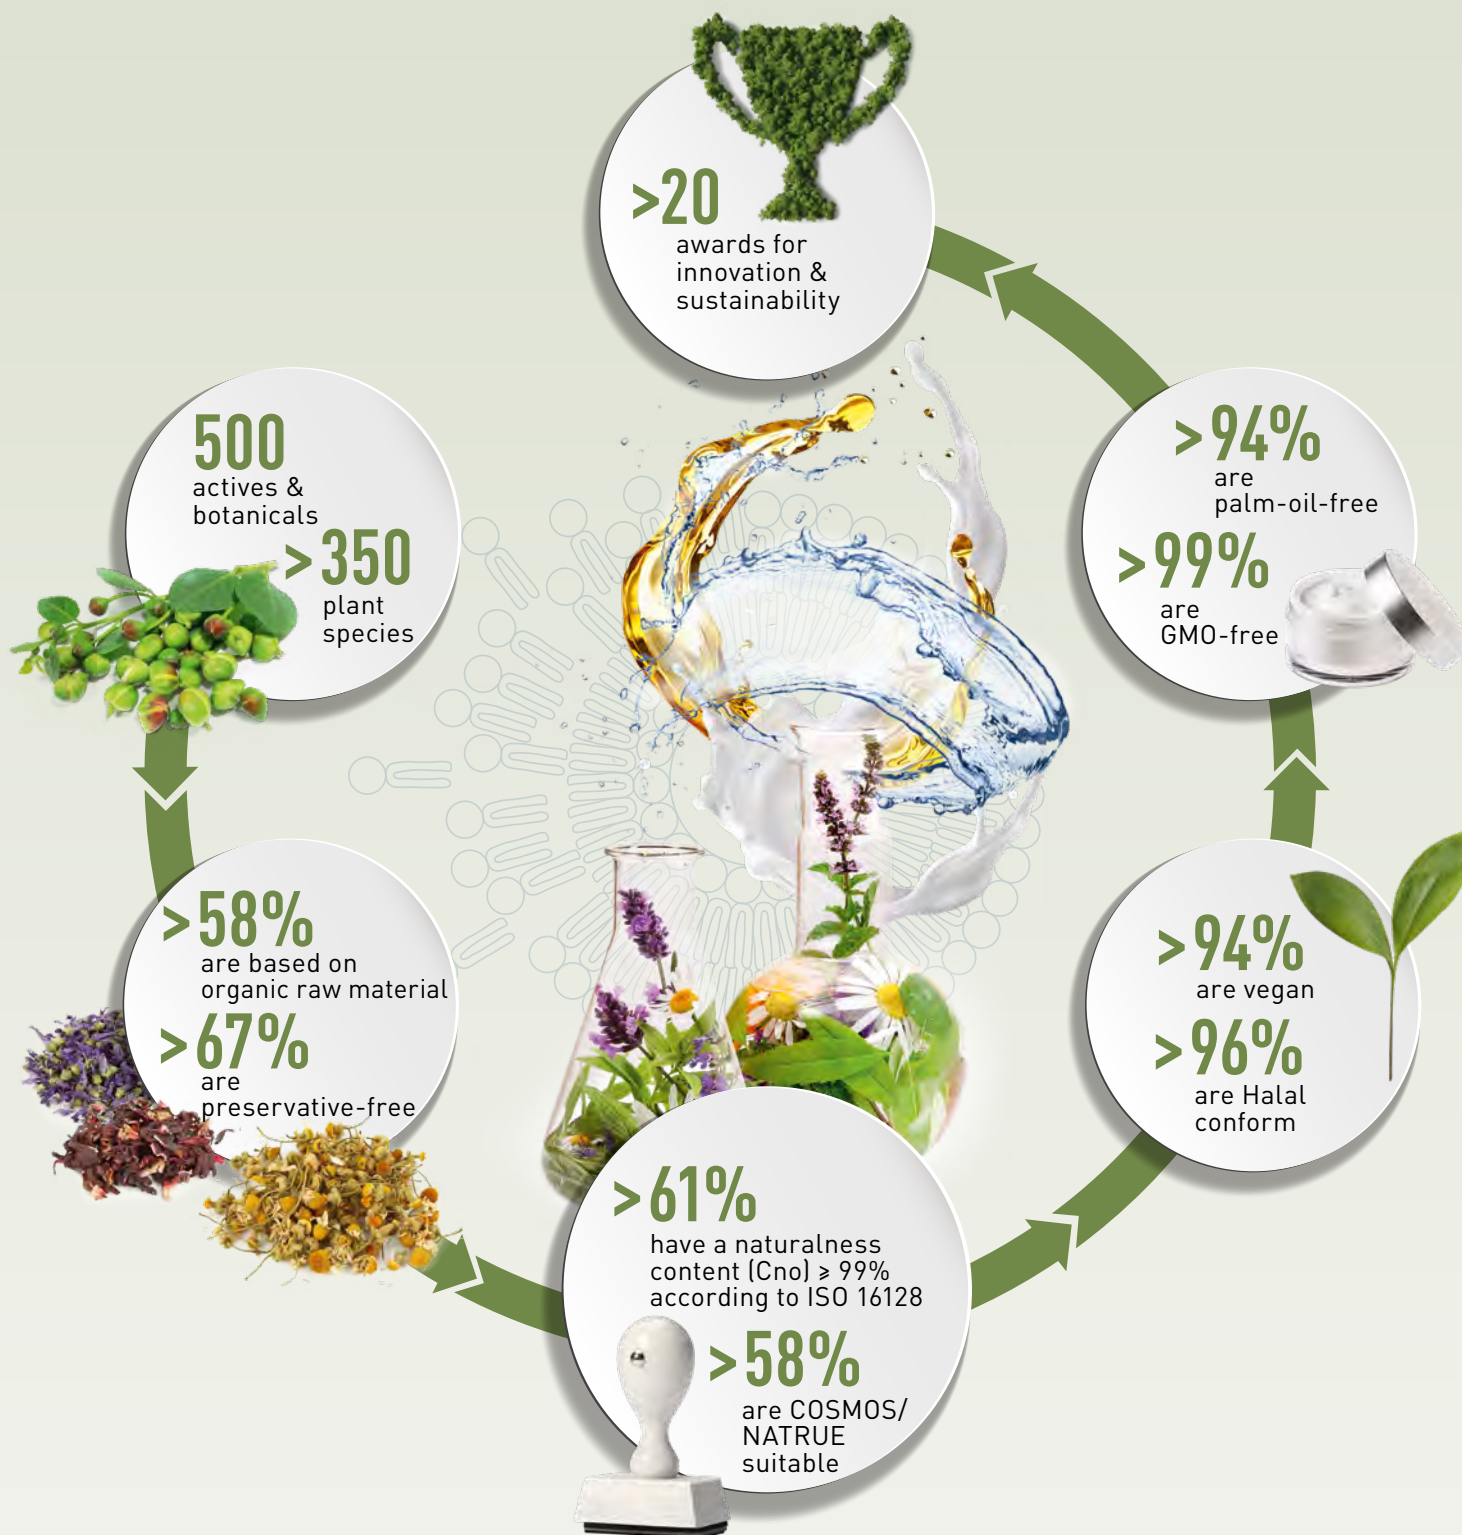

Botanical Expertise, Technology & Innovation

We transform nature's success stories into cosmetic concepts and substantiate them with profound phytochemical *in vitro* and *in vivo* data. Besides, our innovation and product development processes are driven by market and trend analysis.

In order to obtain a multitude of value-giving, plant-derived constituents in our products, we use an electronically controlled, environment-friendly, full-spectrum mild extraction technology.

Key Data of our Product Portfolio

Portfolio Overview

Actives & Botanicals for Cosmetic Applications

Lipoid Kosmetik has pioneered the field of natural cosmetic ingredients since 1972 and is today one of the leading supplier of plant-derived actives and extracts. We make use of over 350 plant raw material and various solvent and carrier systems to provide a broad choice of roughly 500 products.

Proprietary Extraction Technology

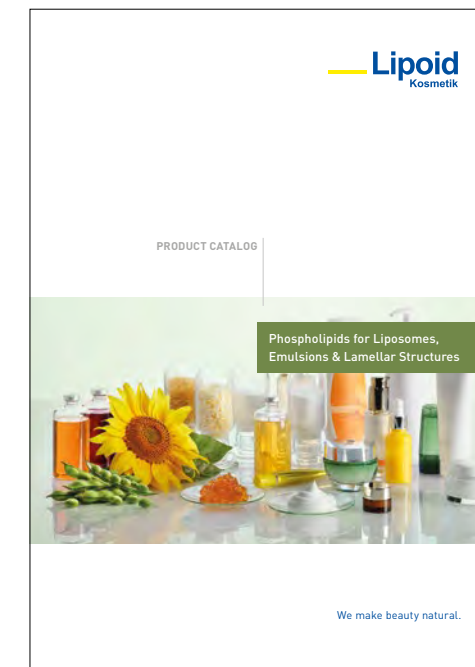

We are firmly convinced that valuable cosmetic effects are mainly the result of the combined action of multiple plant substances. Our proprietary full-spectrum mild extraction technology allows to maintain the phytochemical composition in all its diversity, and to manufacture products of the highest quality and efficacy.

Sustainability Score

Sustainability is at the heart of our product development. Therefore, we assess all our plant raw material with a sustainability score. Please contact us for further details.

Inspiring & Informative Marketing Material

We compile comprehensive product brochures with detailed marketing background, *in vitro* and/or *in vivo* data for our Actives and Substantiated Extracts. For our Botanicals, we offer 'Plant Profiles' and 'Trends & Topics' flyers providing fundamental information about the plant raw material, ideas and cosmetic concepts.

Phospholipid products complete our portfolio. To discover more, please contact us for our Phospholipids catalog.
